# GIVE US THE *time to care*

Care aides, community health workers,  
and other health care assistants play an  
invaluable role on health care's front lines.

On **Health Care Assistant Day** we're  
launching a campaign for higher staffing  
levels, because it's time to invest in the  
people who *need* care and the people  
who *provide* it.

**THANK YOU** for all you do  
to make health care better!
