

# NOTICE OF SPECIAL MEETING

**Are you a health care worker who was impacted by *Bill 29*?**

On June 8, 2007 the Supreme Court of Canada struck down key sections of *Bill 29 – B.C.'s Health and Social Services Delivery Improvement Act*.

Talks between government and the Health Employers Association of B.C. (HEABC) – and health unions – are now underway, and are expected to continue into December.

If you are a health care worker who was affected by *Bill 29* – through layoff or bumping – please come to one of the following meetings to learn more about the Court's decision, how the process is unfolding, and how we can best represent you in discussions with government.
