## **SECTION 1: WORKPLACE ISSUES**

### **APPRENTICESHIP PROGRAM**

- HEU, in conjunction with the BC Federation of Labour, will bring all pressure to bear on the provincial government to reinstate the Apprenticeship Program in its entirety.

(23 BC 10-02) (24 BC 10-04)

- HEU will continue to raise the awareness of the apprenticeship and trades crisis in BC with our members, and the HEU will propose the formation of a policy table with HEABC and the government.

HEU will investigate the ways and means of forming an Industry Training Organization (ITO) jointly with the public sector employers, trade unions, and standardization and licensing which in turn has the potential to provide apprenticeship training.

HEU will lobby the government to restore a balance of equal part representation in governance structure for trades training that makes labour a full and equal partner in the development of training policies and priorities.

(25 BC 10-06)

- HEU will lobby the Provincial Government to provide training to B.C. youth for trades, skilled labour, so we can invest in and employ our own youth.

(PE 06-13)

### **BENCHMARK REVIEWS**

- HEU will negotiate benchmark reviews and wage adjustments for specific HEU jobs and/or job families based on the following criteria:

No benchmark reviews will be negotiated without the funding attached. The funding will be used to address:

- significant retention and recruitment issues;
- changes in scope and complexity of jobs with regionalization;

- training, technical qualifications and/or professional certification requirements that are not appropriately recognized in the existing benchmarks;
- increases in job responsibility and changes in scope of practice;
- lead hand training and supervisory responsibilities

(WP 06) (22 BC 10-00)

## **CLASSIFICATIONS**

- When changes in benchmarks and classifications are necessary, the affected disciplines will have prior direct input into their development.

(22 BC 10-00)

## **HOURS OF WORK**

- Where applications for Extended Hours are approved by the Local and the regional office, a reply is mandatory within thirty (30) days of receipt.

(19 BC 10-94)

- With regard to workers requesting to work extended hours, the change can be made with seventy-five per cent (75%) of the affected permanent full time and part time members voting for it.

(25 BC 10-06)

## **INFORMATION TECHNOLOGISTS**

- HEU will press the HEABC for implementation of the recommendations contained in the Review of Hospital Information Technology Job Classification, which are:
  - Build on the nature of emerging technology (i.e. distributed systems, client/server) to migrate work, skills and responsibility away from the technical focus of information technology departments and toward end user department staff and managers;

- Establish a process to ease the transition for clerical workers to move into entry level IT positions including regional co-ordination of appropriate qualifications, training programs, etc.;
- Support help desk and other entry level staff to move into more senior information technology roles based on a regionally developed and standardized set of career paths and training options relevant to each specific job title;
- Facilitate a process at the regional level to support Information Technology managers to more effectively utilize the HEU's classification system and the posting and selection provisions of the collective agreement to help accomplish points 1, 2, and 3 above;
- Establish a process between union and management to make it easier for IT managers to use unionized employees as a practical alternative to engaging contractors, including the potential creation of a regional pool of IT staff;
- Establish a process to review HEU/HEABC IT related benchmarks; and
- Develop a regional retention and recruitment strategy.

(PE 12-99)

## **JOB SHARING**

- HEU supports the expanded rights for workers in all job share agreements as follows:
  - Employee initiated
  - Request denials are grievable with onus on the Employer to demonstrate inability to accommodate
  - Every arrangement identifies job title, location and individuals covered
  - Details are guided by interests of the involved employees subject to the collective agreement. Rights are neither gained nor lost, except that benefits are maintained at 100%
  - Partner opportunities are posted, and awarded to the most senior capable applicant
  - Employees can revert to their previous position with no loss of status or seniority at any time, and can transfer to a fully comparable position if the arrangement is cancelled, and

- Total vacation is defined by the senior partner, and each partner is entitled to a pro-rated portion, applying their personal seniority for scheduling purposes.

(PE 02-98)

## **NEGOTIATIONS - ONE CONTRACT FOR ALL**

- HEU opposes the wage inequities and supports the principle of all health care workers' wages being at least equal to the Master Collective Agreement.

(15 BC 02-86)

- HEU will lobby the provincial government to bring all commercial service contracts employing HEU members throughout the province back into one master agreement.

(20 BC 09-96) (PE 09-19)

## **OCCUPATIONAL HEALTH AND SAFETY**

- Health and safety on the job is an individual's right and not a privilege granted to the employee by the Employer.

(15 BC 02-86)

- HEU will promote the development and implementation of preventative programs in the health care industry and strive for higher standards of health and safety in the workplace.

(15 BC 02-86)

- HEU will lobby to require Worksafe BC to provide full disclosure of workers' rights in the information package; and that a workers' advocate be available to assist with the day to day requirements of claimants when there is a need for those unable to cope with these tasks.

(PE 11-99)

- HEU opposes mandatory testing (of patients carrying blood borne diseases) and continues to advocate for strong preventative occupational health and safety policies and practices to protect health care providers.

(22 BC 10-00)

- HEU advocates for the implementation of a No Manual Lift policy in all health care facilities.  
(22 BC 10-00) (Revised PE 09-18)

- HEU will lobby government, Health Authorities and regulatory bodies to ensure:
  - Codes and regulations are being adhered to.
  - Work skill requirements are maintained and enhanced.
  - Retention of qualified and experienced in house personnel for the safe and efficient maintenance and operations of BC health care infrastructures.

This campaign will include all HEU certifications in all sectors.

(25 BC 10-06)

- HEU will lobby the government to change the Workers Compensation Act which limits the duration of temporary and permanent disability benefits based on age.

(PE 06-13) (31 BC 11-18) (PE 09-19)

- HEU will lobby employers to address the impact of shift work on health care workers' circadian rhythms and health, particularly for workers who already suffer under heavy workloads and understaffing.

(29 BC 11-14) (Revised PE 09-18)

- HEU will engage WorkSafeBC in discussions to eliminate the use of the BMI (body mass index) scale, as proof of "pre-existing condition" to deny claims.

(PE 03-15)

- HEU will continue to lobby the provincial government, health employers and WorkSafeBC for system-wide policies that address unacceptably high injury rates in health care;

- HEU will press the provincial government, health authorities and all health care employers to develop and fund a comprehensive violence prevention strategy to protect health care workers and the implementation of code white protocols;
- HEU will invest in effective and ongoing health and safety campaigns.

- HEU will lobby B.C. Fed and other affiliated unions to take the position that ICBC and WorkSafeBC fully cover, support and fund the GRTW process.

(PE 10-16)

## **PACIFIC BLUE CROSS**

- HEU will lobby Pacific Blue Cross and all benefit providers to change their policy of non-coverage of treatment while a member is awaiting a WCB appeal decision.

(27 BC 10-10)

## **PHARMACARE FORMULARY**

- HEU will lobby for more medications to be covered by the Fair Pharmacare formulary. HEU will also lobby to ensure more HEU members' claims are accepted and not denied because of the forms, exclusions, or technicalities.

(PE 03-15) (Revised PE 09-18)

## **SENIORITY**

- In negotiating with employers who are amalgamating, consolidating or transferring services, the Union will press for full recognition for all seniority hours, subject to the yearly maximum limited to that which a full-time worker could accumulate.

(PE 11-96) (Revised PE 09-99)

- After transfer to Union coverage, the employee should be given full recognition of his/her seniority and service with the Employer.

Before transfer, however, the excluded employee does not have any seniority and cannot use his/her years of service with the Employer to outbid a Union member.

(PE 05-97)

- Even if there is no Collective Agreement requirement obligating the employer, in the event that a facility or service is closing or downsizing significantly, the Union will press other employers for full recognition for all service and seniority hours subject to the yearly maximum.

(PE 07-00)

- HEU regional seniority (based on Health Authority regions) will be pursued to protect HEU members' rights.

(PE 04-02) (WP 09)

## **VACCINE**

- The Hospital Employees' Union supports the immunization of health care workers and initiatives to improve voluntary update of the influenza vaccine.

(PE 11-00)

## **VOLUNTEERS**

- HEU's perspective on volunteers is based on experiences in the workplace, and influenced by the fact that the union is itself a volunteer organization. Each year thousands of HEU members volunteer in a variety of capacities to meet the needs of members. HEU will continue to develop the means to achieve even greater membership involvement to help build a stronger union.

HEU encourages its members to become active in volunteer capacities in achieving progressive social change in their communities. In the Union's vision of a fairer, more progressive society, working people should be encouraged and be able to volunteer to build a sense of community and the capacity for collective action in the locales where they live.

Within the workplace, and the broad health care setting, HEU members recognize that volunteers play an important role in the delivery of health care. But pressures from ongoing health care funding cuts and bad employer practices frequently lead to tension on the job and a blurring of appropriate roles and responsibilities.

Services within the broad health care setting provided by volunteers shall complement but not duplicate the work performed by front line care-givers, in which volunteers add something extra in their roles.

Employers cannot be allowed to replace or displace staff, or fill vacant positions with volunteers. Nor can employers be allowed to use volunteers as providers of ongoing services. An essential job on a continuing basis should be a bargaining unit position. If volunteer activity illustrates an ongoing need, then the work should become paid work.

HEU is opposed to excessive volunteer requirements that are:

- Prerequisites for health care training programs;
- A condition of qualifying for or receiving social assistance;
- Part of the curriculum for high school community awareness programs.

(PE 07-00) (PE 87)

## **WORKING FROM HOME (TELEWORK)**

## **DEPENDANT CARE WHILE AT UNION FUNCTIONS**

- HEU strongly encourages all members to play an active role in the Union. HEU recognizes that our members have family responsibilities that they balance with work and union activity. This Dependant care policy is one way to help with that balance and eliminate some of the barriers that prevent members with family responsibilities from participating fully in their Union.
  - This policy applies to participation at all provincially sponsored HEU functions.
  - Wherever possible and where there is sufficient need, HEU will provide quality, on-site childcare.
  - HEU will reimburse receipted off-site dependant care costs, over and above the cost of normal expenses incurred for work, at the current minimum wage per hour, to a maximum of \$160 per family for a continuous 24 hour period.
  - For the purposes of dependant care while participating in union functions, a dependant is either a member's own or their spouse's children, if they are under the age of 16 and reside with the member full or part time.
  - Also, a dependant may be any person, regardless of age, who is Dependant on the member's care because they are mentally or physically challenged, or parents, grandparents and elder relatives requiring the member's assistance in day-to-day living.
  - A spouse includes common-law and same sex partners.

- Reimbursement will not be made to a member's spouse or to a parent or sibling of the Dependant or to a person living at the same address.
- In recognition of unique dependant care and special care needs, exceptional circumstances will be considered.

**Procedure:**

- A Dependant Care Cheque Requisition form must be completed in-full and submitted as part of the member's expense claim in order to receive reimbursement,
- The form must include the care giver's name and address and a signed receipt must be attached,
- The names and ages of dependants must be listed, including their relationship to the member,
- There will be no cash reimbursement of dependant care expenses,
- In order to comply with Canada Revenue Agency regulations the Dependant Care Cheque Requisition form must be signed by the member as being accurate,
- A T4A form will be provided to the member at the end of the year as dependant care reimbursement must be declared as income; and
- Requests for reimbursement for exceptional circumstances must be made to the Financial Secretary. The member will be notified within 72 hours if the request is denied and of their right to appeal. The member may appeal to the Provincial Executive and the member will be notified of the PE decision within 24 hours of the last day of the meeting.

(26 BC 11-08)

- HEU will adopt the following statement on Diversity, Equity and Inclusion:

We must build a Union for all our members.

### **HEU's Statement on Diversity, Equity and Inclusion**

Since 1944, the Hospital Employees' Union has advocated for better working and caring conditions, defended public health care, and stood against privatization. We have a long history as a strong, democratic, progressive, socially conscious union committed to social justice and advancing labour and human rights on a local and global level. We identify and challenge historical and systemic inequities and hear, respect, serve, empower and advocate for, each and every member. Together we fight for fairness, solidarity, equity, inclusion, and understanding, knowing that our members' economic security depends on our success.

Privatization, attacks on workers' rights, and the devaluing of our members' work have undermined the dignity and security of our members. These forces have reshaped the union and at times threatened to undermine our solidarity. We understand that equity and inclusion are intrinsically linked and that an injury to one is an injury to all. And we know that building a powerful and inclusive union requires acknowledgment and understanding of the structures that oppress workers. Sexism, racism, colonialism, homophobia, transphobia, ageism, and ableism have no place in our union.

We see HEU as a union for everyone. And we know that equity is a critical part of union life and work and must be embedded into all our practices. We are committed to resisting oppression and to building an economically and socially just society. We work hard every day to ensure that all members are heard, represented and able to contribute fully to their workplace, communities, and union.

We believe that our union is strongest when its leadership is inclusive and reflects the full diversity of the membership. Because it is so important for diverse voices, perspectives and lived experiences to be engaged in the work of the union, we commit to including underrepresented groups when determining the union's leadership composition and mandate at the provincial, regional and local levels.

To ensure that HEU events are inclusive and barrier-free, we actively seek out varied perspectives and consider the complexity of the different realities, lifestyles and availability of our members and employees when determining how we work, plan, deliver and evaluate our communications, campaigns, events, education, services, and activities.

In keeping with our history, when we know better, we do better. And despite our significant progress over the last 75 years, we know we can do better still. That's why our promise to our current and future members is that we will continue to work to advance the union's goals and objectives and power our solidarity through diversity, equity and inclusion (DEI). We promise to ensure ongoing DEI education for both leadership and members, and ongoing resources for embedding effective DEI practices into every aspect of our work. We promise transparency and accountability to you, our members, as evidenced by seeking and providing regular communications on our progress.

At HEU, we recognize that we all have unique lives and experiences. We respect our differences and appreciate our interdependence. We know that diversity makes us stronger collectively when all voices are encouraged, heard and valued. That's why we believe that no matter who you are, or what your role is in our union, you belong with us.

(31 BC 11-18)

#### **Diversity, Equity and Inclusion Consultation and Implementation Project, PE Composition (Phase I)**

- HEU will establish a two-phase diversity, equity and inclusion (DEI), consultation, assessment and implementation project. In phase I, the union will strike a DEI working group with a mandate to consult broadly with members regarding the question of representation of equity-seeking groups on the Provincial Executive and make recommendations for constitutional and policy changes to the 2020 HEU biennial convention. The DEI working group will be comprised of:
  - One member from each Equity Standing Committee
  - One member from the Young Workers' Committee
  - One member from each region (Fraser, Interior, North, Vancouver Coastal, Vancouver Island)
  - The Provincial Executive representatives to the Equal Opportunities Committee (two)

The DEI working group will be properly resourced and have access to subject matter experts so the committee can complete its work. It will meet at least three times in each year, and in between meetings will consult broadly with the membership, HEU's Equity Standing Committees, HEU's Young Workers' Committee, and the Provincial Executive.

The DEI working group will report its findings to the HEU Provincial Executive in advance of the 2020 biennial convention. The working group report and recommendations will be issued directly to the 2020 convention.

(R10 BC18)

### **Diversity, Equity and Inclusion Consultation and Implementation Project (Phase II)**

- HEU will implement a Phase II of the diversity, equity and inclusion project that is renewed with a fresh mandate and terms of reference to be adopted at the 2020 HEU biennial convention;

Continue the work of transforming our union into a fully inclusive organization by making recommendations to the 2022 HEU biennial convention on matters including but not limited to:

- A broad governance review beyond the composition of the Provincial Executive;
- Identifying and initiating plans to dismantle barriers to equity and inclusion at the local level;
- Actively working toward leadership development at all levels of the union that includes training on how to apply a diversity, equity and inclusion lens; and
- Assessing the ongoing impacts of precarious work on our members and how that should be factored into the union's approach to diversity, equity and inclusion.
- Ensure that Phase II of the diversity, equity and inclusion consultation, assessment and implementation project to be properly resourced, including access to subject matter experts.

(31 BC 11-18)

- HEU will direct the Provincial Executive to ensure sufficient resources for 2019 and 2020, in order to support the work of the Diversity, Equity and Inclusion (DEI) working group;

All labour courses within Canada endorsed by HEU shall be paid to a maximum of five hundred (\$500) dollars per member, per year for registration costs for members to attend labour study courses.

- The registration fees shall be paid by the member and the receipts submitted to the Financial Secretary for reimbursement.

## **ENHANCED DISABILITY MANAGEMENT PROGRAM**

- The Enhanced Disability Management Program, as negotiated in the FBA collective agreement, is intended to provide support for workers who are injured, disabled or ill to return to work or remain at work through customized disability management programs.

### **Recruitment of Stewards**

The program is delivered by 18 EDMP stewards who are recruited and trained from the HEU membership subject to the following:

- EDMP stewards are assigned regionally by health authority with the exception of the affiliate EDMP steward who represents members in affiliate sites on a provincial basis, excluding Vancouver Island, which will have steward services provided by the central Island EDMP steward;
- They are recruited through the posting of an expression of interest EOI and subject to ratification by the Provincial Executive;
- An EOI will be posted every March. Candidates that meet the threshold requirements for the position will be required to attend a workshop to evaluate their skill level. Vacant EDMP steward positions will be filled by candidates deemed qualified within their region/health authority. An orientation session will be offered to newly appointed EDMP stewards;

- Candidates deemed qualified who are not appointed to an EDMP position will be placed on an alternate list and will be called up in the event an EDMP steward vacates a position in between the annual EOI posting. If the alternate list is exhausted for a particular region and health authority before the March EOI posting, an EOI will be posted in the affected region/health authority. The alternate list will be voided and re-populated each year following the EOI.
- Current EDMP stewards can re-apply on the annual EOI posting after their two year appointment is completed, however they will only be considered for re-appointment and placement on the alternate list if no qualified candidates have applied in the region/health authority that they work in.
- EDMP stewards are released from their industry positions on a full-time basis (as is the case with labour relations shop stewards at many sites) per the December 2013 letter of agreement between the FBA and HEABC outlining the funding arrangement.
- The number of EDMP stewards will be adjusted according to the needs of the program and the budget available.
- Should an EDMP steward resign during their term, they would then be required to re-apply during an EOI in order to be reconsidered for an EDMP position.

## **Duties**

The duties and qualifications of EDMP stewards are listed on the EOI. Due to the full time nature of the role EDMP stewards are advised not to take on a full time role on their local executive. They may take on a less demanding role.

An EDMP steward may not act as a labour relations steward during their term.

If an EDMP steward is elected to a position on the provincial executive or the bargaining committee they will resign their position as EDMP steward.

EDMP Stewards are full members of HEU and can participate in all union functions, meetings, events including labour council.

## **Term**

The term of an EDMP steward will be two (2) years. Terms of stewards will be staggered so that there is always at least one experienced steward in each region.

(PE 02-16)

## **EXCLUDED HEU STAFF / FULL TIME OFFICERS' VACATIONS**

- All non-contract staff and full-time elected officers must supply all their vacation schedule by March 31st of each year to ensure that vacation hours will be depleted by December 31st of the same year.

(PE 12-01)

- The Union has successfully negotiated excellent vacation language in our Collective Agreement. We believe that it is imperative that people take vacation on a regular basis, to relax, renew, regenerate, and have personal time. We believe that the full-time officers are entitled to and must actively schedule vacation each and every year for them. Accumulated vacation time also becomes a liability for the Union, and it is not prudent accounting practices to carry this liability year after year. Therefore, the following policy will be applied:

The elected full-time officers of the Union shall make every possible effort to use their annual vacation allotment.

Arrangements will be made by the Committee on Labour Relations, in advance for coverage, where necessary, developing members who have been elected into positions that cover the full-time officers.

Vacation schedules will be given to the Committee on Labour Relations no later than April 30th of each year. If vacation time is not taken by December 31st of each year, it shall be paid out on the first pay period after January 1st each year. Carry-over of vacation time will not be permitted, unless the time is booked in the existing year and carries into the New Year.

Under extraordinary circumstances, (i.e. time is scheduled for the month of December and legislation came down that would harm the Union, medical emergency) vacation can be rescheduled into the New year, by written request to the Committee on Labour Relations, and must be taken as soon as possible in the New Year. The Committee on Labour Relations shall vote and approve the request in writing and report the decision to the Provincial Executive.

(PE 09-06)

## **EXPENSES, TRAVEL AND PER DIEM**

- Expense claims will only be paid for the current year and six (6) months in any previous fiscal year, effective March 1, 2000.

(PE 12-99)

- HEU will reimburse members up to full-time hours per shift only, regardless of where they are delegated from, providing the site is an HEU certification and the members will provide proof of loss of shift.

(25 BC 10-06)

- The policy of per diem will be the same for all of the membership including the Provincial Executive; and

This fair and equitable policy will be effective November 10, 2008.

(26 BC 11-08)

- Increase mileage so it is always the same as the CRA's allowable rates per kilometer.

(30 BC 11-16)

- Increase per diem rates as follows: full day rate \$75.00, in town/partial rate \$37.50; and this new rate will take effect starting the second day after Convention 2016.

(30 BC 11-16)

- Members who attend a Union sponsored event are expected to travel home upon adjournment wherever possible. When members choose to drive, any added costs over the cost equivalent of airfares; such as hotels, per diems, wages, etc. will not be the responsibility of HEU.

Any special circumstances will be referred to the Financial Secretary.

(PE 04-02)

- The HEU travel policy will be sixty kilometers or ninety minutes to be entitled to accommodation.

(26 BC 11-08)

- Members travelling from out of town for a union event are expected to be able to arrive at the venue at a reasonable time the evening before when the event is scheduled to begin the following morning.

If the members would require time off the day before from a scheduled shift (either a full shift or part of a shift) they may request union leave for the reasonable amount of time needed for travel.

For events scheduled to begin in the evening, members are expected to arrive in sufficient time to register and check-in to their hotel. Should the time to travel to the event require leave from a shift (or part thereof) they should request union leave.

Members are expected to travel home at the end of an event on the same day if they are able to reach their home at a reasonable hour. If that is not possible, the member may apply for union leave for all or part of a shift (as appropriate) for the reasonable amount of time needed for travel on the following day.

The Financial Secretary has discretion to deal with special circumstances.

Note: Where possible, if the following day is not a scheduled day of work, members should travel home even if they do not arrive until later in the evening. For example, if a member is flying home to Campbell River and taking a cab from the airport and will be home before midnight, they should do so. However, if a member is flying to Prince George and faces an hour drive from the airport in unsafe weather conditions at night, they should instead return home the following day.

Per the Rest Day Policy, rest days will not apply to travel days unless a full day of travel is required.

(PE 01-19)

- Accommodations will be provided for **ALL** HEU Delegates when attending the BC Federation of Labour, CUPE National, and CLC Conventions when held in Vancouver.

Because HEU delegates are expected to attend evening sessions/forums/committee meetings/caucus at conventions. This would allow members to network with other unions and members and become more engaged with being an activist.

All delegates are encouraged to use public transit to and from such conventions. All delegates will be entitled to “out of town” per diem.

(PE 05-15) (Revised PE 06-19)

- HEU will provide all details on expense statement, i.e., mileage to and from all functions (per diems, parking, travel expenses). All notable and differences from expense vouchers submitted must be clearly explained.

## HEU POLICY AND PROCEDURE DESIGNED TO PROTECT HUMAN RIGHTS AND ENCOURAGE MUTUAL RESPECT

- Mutual respect must be the basis of interaction among members and staff of the Hospital Employees' Union at all times, but particularly at HEU Conventions, HEU Conferences and other HEU sponsored events and in day-to-day interaction between members and staff.

The Hospital Employees' Union will neither tolerate nor condone behavior that is likely to undermine the dignity or human rights of an individual either during working sessions or during social activities.

In order to ensure an environment that is supportive of mutual respect and fair treatment, the Provincial Executive has established the following policy and procedure. It defines what is unacceptable behavior and sets out a complaint procedure to effectively deal with violations of the policy.

Protecting the human rights, prevent bullying and encouraging mutual respect of our sisters and brothers is fundamental in ensuring a strong and united Union. This policy enshrines the anti-bullying and harassment protections of the Workers' Compensation Act and OH&S policies and the anti-discrimination protections of the BC Human Rights code.

Under the Workers' Compensation Act, bullying and harassment includes any inappropriate conduct or comment by a person towards a worker (includes a member at an HEU event) that the person knew or reasonably ought to have known would cause that person to be humiliated or intimidated.

Under the BC Human Rights code discrimination is prohibited on the following grounds: race, place of origin, color, religion, age, sex, sexual orientation, marital status, family status, disability, and conviction for which a pardon has been granted.

Harassment based on the grounds includes:

- Verbal abuse or threat;
- Unwelcome remarks, jokes, innuendos or taunting about a person's body, attire, age, marital status, ethnic or national origin, religion, sex, etc.
- Displaying of pornographic, racist or other offensive or derogatory pictures;
- Practical jokes which cause awkwardness or embarrassment;
- Unwelcome invitations or other requests, whether indirect or explicit, or intimidation;
- Leering or other gestures;

- Condescension or paternalism which undermines self-respect;
- Unnecessary physical contact such as touching, patting, pinching, punching; and
- Physical assault.

**Note:** This policy applies to HEU members and to HEU staff during HEU Conventions, HEU conferences and other HEU-sponsored events.

This policy applies to day-to-day interactions between HEU members and HEU staff.

This policy does not apply to HEU members in the workplace (please refer to your Collective Agreement for provisions that apply to HEU members).

This policy is supplementary to and does not supersede the parties' obligations under the HEU/Unifor-W 468 Collective Agreement or under the HEU Constitution and By-Laws.

## **SCOPE**

The underlying goal of this policy is to protect human rights, eliminate bullying and encourage mutual respect at all times. The underlying approach is a problem solving one to resolve disputes in a mutually satisfactory manner.

## **PROCEDURES**

Any HEU member or HEU staff member at a Union sponsored event who believes that she/he has been subjected to behavior that is discriminatory or bullying and harassing contrary to this policy may access this procedure.

Confidentiality is a vital part of this process. It is a requirement of this policy that all parties respect the confidentiality of the process.

A complainant, respondent or a witness who is part of this process is exercising her/his legitimate rights. It is a serious violation of this policy if there is any retaliation against a complainant, respondent or a witness for having initiated or participated in a complaint.

**First Step:** Direct Discussion

Where the complainant feels safe she/he can discuss their concern directly with the person (the respondent) in an effort to resolve the concern.

**Second Step: Informal Complaint**

If the complainant does not believe that the matter has been satisfactorily resolved through direct discussion or the First Step did not occur, she/he may contact the Ombudsperson to make an informal complaint. The Ombudsperson shall advise the complainant of the merits of the complaint and possible courses of action. All discussions are without prejudice and will be treated with complete confidentiality.

**Third Step: Mediation**

If the complainant and the Ombudsperson believe that the matter can be satisfactorily resolved through mediation the Ombudsperson shall contact the respondent regarding the possibility of mediating the matter. All discussions in mediation are without prejudice and will be treated with complete confidentiality.

**Fourth Step: Formal Complaint**

If the matter does not proceed to mediation or is not resolved at mediation the complainant may file a formal complaint to the Complaints Investigator in writing outlining the details of the alleged violation of HEU's policy to protect human rights, prevent bullying and encourage mutual respect. This complaint should be filed within six (6) months of the most recent incident(s) giving rise to the complaint. Upon receipt of the formal complaint, the Complaints Investigator shall notify the respondent in writing within fourteen (14) days.

The Complaints Investigator shall meet with the complainant and respondent as expeditiously as possible to hear and investigate the complaint. The Complaints Investigator may make an effort to achieve a resolution of the complaint at any time. Both parties are entitled to be accompanied by representatives and are entitled to call witnesses.

Within sixty (60) days of the conclusion of the investigation the Complaints Investigator shall report on the results of the investigation, including any recommendations for action. The recommendation(s) will not include discipline.

The Complaints Investigator shall forward a copy of the report to the complainant, the respondent and the Administrative Committee. If appropriate, the Administrative Committee will forward the report to the Provincial Executive.

The Provincial Executive will take such action that it considers necessary to uphold the HEU's policy designed to protect human rights and encourage mutual respect.

**Please Note:** Allegations of violations of this policy are treated very seriously. There is a requirement for Provincial Executive members and staff to report allegations of a violation of this policy to the Co-coordinator of Human Resources or their designate.

The Provincial Executive has, by motion, made it clear that HEU considers serious violations of this policy are covered by Article 19 (Emergency suspension and Expenses) of the HEU Constitution and By-Laws.

(PE 03-98)

- Locals of fifty (50) or fewer Members that are newly certified with HEU will be required to merge with an existing Local or Locals within two (2) years of achieving a contract under HEU. Such Locals shall have the ability to consider a variety of merger partners and maybe excluded from merging by the Provincial Executive where it can be shown that reasonable efforts have been made by both partners to make the merger work, but that the Locals being considered for merging are fundamentally incompatible.

Locals of fifty (50) or fewer Members will be required to merge as per the existing policy unless there are compelling reasons to show that suitable merger partners cannot be found despite Local building assistance by the Provincial Executive and reasonable efforts being made by the Locals.

The Provincial Executive shall provide assistance to Locals already merged where problems exist in order to build Local strength. Where it can be demonstrated that reasonable efforts have been made to make the effort work, but that the merged Locals are fundamentally incompatible, the Provincial Executive will dissolve the merger after no less than a two (2) year trial period.

The issue of merging concerns will be one of the top priorities for the Provincial Executive.

(22 BC 10-00)

- The guiding principles for remote sites (multi-site certifications) be that each site under fifty-one (51) Members join a geographically appropriate Local, subject to concurrence with the legal department, and to change should the requirement of Membership under fifty-one (51) change by the Provincial Executive or policy.

The decision as to the disposition of pre-merged locals' capital assets such as computers and photocopiers will be determined by the pre-merged locals.

(PE 05-11)

- HEU policy permits dissolving merged locals: Where it can be demonstrated that reasonable efforts have been made to make the effort work, but that the merged locals are fundamentally incompatible, the Provincial Executive will dissolve the merger after no less than a two year trial period.

Merged locals are required to combine bank accounts at the time of merger.

This policy applies if demerging locals are unable to reach a fair agreement acceptable to both locals.

When merged locals are dissolved the current local bank account will be divided among the demerging locals based on the average number of dues paying members in the previous six months as determined by the finance department.

Significant changes in the number of members or other extenuating circumstances in the previous six months will be taken into consideration when calculating the division of the current bank account.

Mediation will be offered to locals unable to reach agreement when dealing with complicated issues arising from demerging locals and dividing assets.

### **PEANUT FREE ENVIRONMENT**

- A person with a peanut allergy may experience a range of symptoms if they come into contact or ingest peanuts. This depends on the severity of the person's allergy and how they have been exposed to peanuts. Symptoms may range from a skin reaction, such as hives or eczema, to anaphylaxis, which is a potentially fatal constriction of the airways and swelling of the throat. With a severe allergy, a person that ingests peanuts must receive treatment immediately to prevent a fatality.

To prevent exposure to peanuts, the HEU has made their offices “peanut-free workplaces”. This means that you should not bring or consume peanut products at HEU offices and HEU sponsored events.

Staff with event organizing functions should ensure that we always communicate this policy to attendees of HEU sponsored events.

### **Email policy**

- General Principles

The use of e-mail and other electronic tools for communication are now accepted practice. Along with this practice is a responsibility and a liability. HEU, as an organization and as an employer, is responsible for such legal issues as harassment claims, defamation claims, and unauthorized disclosure of confidential information and infringement of copyright material.

- Electronic tools (including smart phones, internet access and e-mail) must not be used to download, store, transmit or post pornographic, profane, sexually explicit, obscene discriminatory, false, derogatory, defamatory, threatening or otherwise offensive materials.
- HEU will not tolerate the use of the electronic tools to send, post or store offensive remarks about race, religion, ethnicity, sex, sexual orientation or disability, or any other prohibited ground of discrimination
- E-mail must not be used to duplicate or transmit copyright material without the copyright owner's written permission.
- The Provincial Executive should not send confidential information through the Internet to unauthorized persons and organizations.

- The e-mail system must not be used for any illegal or unethical activity or any activity that could adversely affect the union.

It should be noted that the Union owns the e-mail accounts and all data communicated through them. This policy will be reviewed and updated to ensure it is current with any changes in the law.

Violations to this policy will be subject to discipline under the constitution and By-Laws. Provincial Executive Internal Communications.

Members of the Provincial Executive receive an extremely high number of emails each day. Email can be a great tool for communicating information, but it is a tool that is not good at conveying tone or intent. The following “email etiquette” tips are to help senders and receivers manage the information they receive and avoid common email pitfalls.

#### “Reply All”

- In most cases replying to the sender alone is your best course of action.
- Use the “reply all” button only when compiling results requiring collective input or if you have something to add, other than “thanks” or “me too” or “LOL”.
- Ask yourself if everyone on the recipients list needs the information in your message. For example, the results on a strike notice vote can be forwarded to everyone afterwards using a single email – thereby avoiding 23 “reply all” emails during the voting process.

#### Sending or copying emails

- Send or copy to only those PE members that need to know the information.
- If you are asking someone to take some action or respond, put them in the “to” line. Otherwise, anyone who is being copied on an email as an FYI, should be listed in the “cc” line. This allows recipients of the email a quick way of knowing how to prioritize their emails and action items.
- We all come across interesting things we want to share with others. Before sending it by email, consider whether it would be better to share the information face-to-face – particularly where you want additional discussion on the topic being shared.

#### Tone

- This is one of the great challenges of email. Care must be taken both when sending an email message, and when reading it. Try not to be too harsh if there's a chance that you might have misinterpreted the sender's meaning.

- One problem with email is missed signals - the written message doesn't come with facial expressions or gestures that you would get in a face-to-face meeting, and there's no tone of voice to interpret as you could over the telephone.
- Remember to be polite. Terseness can be misinterpreted.

(PE 08-13)

#### **Home internet charges**

- Provincial Executive members will be provided with a monthly internet allowance of up to \$50.00 because they are required to use the internet to fulfill their Provincial Executive responsibilities and are expected to be reachable on email by HEU officers, staff and members.

(PE 01-03)

- The address of the Provincial Executive member should be the same as on the internet invoice in case the invoice name is not the same.

(PE 03-17)

#### **Hotel internet charges**

- When Provincial Executive members are travelling on union business and are required to use internet to fulfill their Provincial Executive responsibilities, hotel internet charges will be claimed and reimbursed as expenses. PE members will use free hotel wireless service whenever possible in order to minimize these expenses.

(PE 12-09)

#### **Housing and Transportation Expenses for Full Time Out of Town Officers**

- In order to ensure that there are no barriers to participation of members from across the province in seeking an elected full-time position within the union, HEU will reimburse full-time out-of-town officers who maintain a permanent out-of-town residence, the cost of reasonable accommodation near the Provincial Office for the length of their elected term.

There will be no limit on the number of years that an elected full-time out-of-town officer would be eligible for coverage under this policy.

The Union will reimburse each elected full time out of town officer, who maintains a permanent residence in their home town, the cost of reasonable accommodation, based on their needs.

These specific needs will be based on factors such as family unit characteristics or physical abilities. The average market rent for vacant apartments in Burnaby, New Westminster and Vancouver, as per the *CMHC Annual Market Report for the Vancouver Census Metropolitan Area* will serve as a guideline when applying this policy.

A determination as to what constitutes the cost of reasonable accommodation will be made by the Coordinator of Finance and the trustees. If the officer receives rental income from their permanent residence the compensation from the union for accommodation in the Vancouver area will be reduced by the amount of that rental income.

In addition, the Union will reimburse each elected full-time out-of-town officer for up to 24 round trips per year (on a pro-rated basis) between their permanent residence and the Provincial Office. The trips can be taken by the full-time officer or a family member. The cost will not exceed the maximum allowable price of a round trip airfare.

(PE 04-19)

## **Maintenance of Policy and Procedures Manual**

- HEU will authorize the Provincial Executive to update the Policy and Procedure Manual by archiving items that are outdate, no longer applicable, or refer to organizations, campaigns, and programs that no longer exist; and maintain an archive of such policies and procedures in the HEU Provincial Office.

(PE 10-16)

## **Meetings**

- Provincial Executive meetings are open to the membership to attend without voice or vote, as follows:
  - That this be at no cost to the Hospital Employees' Union for the members to attend;
  - The Provincial Executive meeting agenda to be available through a section on the Web site, or on request;
  - A calendar of dates will be prepared and that an event be planned on a regular basis for members to come and meet the Executive on adjournment of regular meetings;

- Areas of a confidential nature shall be considered “in camera” and not available to the membership;
- Members that wish to attend an Executive meeting should pre-register by phone, email, fax or drop in at the Provincial Office;
- Members that drop in without pre-registering would also be entitled to attend providing space/seating is available;
- Members attending Provincial Executive meetings be limited to one (1) day;
- Every effort will be made to accommodate members or guests with disAbilities;
- Information will be circulated to the Locals that the Provincial Executive is available and that there be equal access to all Locals, if possible;
- Serious consideration will be given to having Provincial Executive meetings out of town in budget discussions;
- This process will be reviewed in six (6) months.

(PE 10-01)

- PE members, who have shown an interest in being on a committee or attending a conference, will be given the opportunity to give a one minute speech to explain their interest in the committee or conference and the skills or experience they bring to the committee or conference that would benefit the HEU with their participation.

- Guidelines for Provincial Executive Subcommittees with Local Activists

Goal:

The goal of these subcommittees is to broaden discussion of issues within the leadership of HEU, provide detailed background information and to undertake activities in their area of work as approved in principle by the Provincial Executive.

Composition:

These committees will usually be composed of two (2) Provincial Executive members and five (5) Local activists.

The President, Secretary-Business Manager and Financial Secretary are members of these committees but will not be expected to attend meetings.

The term for the sub-committee members will be for two (2) years.

An expression of interest will be circulated to all Locals for activists to put their names forward, and the activists will be appointed by the Provincial Executive on the recommendation of the Executive Committee members of the sub-committee.

### Co-Chairperson:

The Co-Chairperson will be selected by the Provincial Executive members for the committee from among the Provincial Executive members.

The Co-Chairperson's responsibilities include:

- Work with committee members and assigned staff to carry out the decisions of the sub-committee between meetings;
- Prepare a brief written report to be circulated in the Provincial Executive mail following each sub-committee meeting;
- Identify those sub-committee recommendations which require full Provincial Executive consideration; and
- The Committee Chairperson shall ensure that a current listing of the names, Locals, home and work telephone numbers and addresses of each committee member are provided to the Provincial President, Financial Secretary, Secretary-Business Manager and assigned staff.

### Budget:

Each year the sub-committee will prepare a proposed plan of work and proposed budget (prior to November) and submit it to the Financial Secretary.

Budget proposals should be broken down between meeting expenses and action plans and each section should be as detailed as possible, along with justification for the expense.

Meeting expenses typically include lost wages, per diem, dependant care, travel and accommodation for committee members, meeting room rental, nutrition break supplies etc. The proposal should indicate the number of meeting days X the routine expenses anticipated for each.

Action plan expenses match the Committees objectives for the fiscal year and could include Newsletter production and distribution, special events such as conferences, development of educational materials, memorabilia and other costs.

Any decision made by the Committee which requires that funds be spent (within any line item of the approved budget), must be endorsed by the Committee by motion. Any other

expenditure (outside the approved budget) must be pre-authorized by the Financial Secretary. Unionized goods and services must be utilized whenever possible.

The budget will be subject to Provincial Executive approval.

Education programs:

Education programs must be made available to the whole HEU membership as per Article 21 Section E of the HEU Constitution and By-Laws, which states that:

“All subsidized Educational programs established by or subscribed to by the Union shall be open by application to all members.”

The term “Educational Programs” has been interpreted to include conferences and conventions as well as seminars etc. Therefore, Committees must not send committee members to education opportunities to the exclusion of the general membership. Any uncertainty as to whether or not an event falls under Article XXI should be referred to the President for a decision.

Specific invitations to speak to a conference or to facilitate at a seminar may be filled by a Committee member without violating Article 21. This should be cleared through the Administrative Committee.

The sub-committee may make decisions and take action in areas that are consistent with HEU policy and within its budget. In addition, the sub-committee may make recommendations to the Provincial Executive to establish new policy or to take action and/or spend money in broader areas. Any concerns about whether a particular issue or decision is solely within the scope of the subcommittees or the Provincial Executive should be brought to the attention of the Administrative Committee.

Minutes:

A committee member should be assigned to take minutes of all meetings. All minutes should be given to the staff liaison person to have typed and specific follow up notation included in the margin. Minutes should be approved at the next committee meeting and then provided to staff for circulation to the Provincial Executive.

Staff Role:

The Secretary-Business Manager will arrange to provide the necessary staff resources to the sub-committee. The subcommittees do not direct staff, who have other union assignments to carry out as well. If problems arise, the Chairperson should raise them with the Secretary-Business Manager.

Staff are not to be excluded from any sub-committee discussions unless instructed by the Secretary-Business Manager or designate, that is, there are no in camera sessions.
