

STRONG Women

ON THE 100TH ANNIVERSARY of International Women's Day, HEU salutes the generations of women who have paved the way for greater equality and a better world.

Their courage, leadership and determination continue to inspire women today to stand up and speak out against all forms of injustice.

As B.C.'s largest union of women workers, we're committed to economic and social policies that will end discrimination and further women's rights.

- **Decent jobs that support families and communities**
- **A comprehensive poverty reduction program**
- **An end to violence against women**
- **Universal, public health care**

Celebrating 100 years of Sisterhood!

Strong World
